

Elevator Things...

“Art is the most intense mode of individualism that the world has known.”

— Oscar Wilde, [The Soul of Man Under Socialism](#)

- In case nobody has figured it out yet. The USPS mail carriers are occasionally putting mail in the cubby holes located below the mailboxes in the Lobby. So far, the right mail has been paired up with the right unit cubby hole. The carriers are also delivering mail for residents who have not resided in the building for years. Feel free to write on the mail “not at this residence” or “no longer lives here” and put it back in the outgoing mail slot.
- A bit of housekeeping as it were. Please turn off the lights in the amenity’s area (fitness room, community lounge and conference room) after you are through using them.
- Thank you to all 6th floor residents for putting up with the kitchen drain clean out routine.
- Please be aware that we are experiencing a new crop of near-do-wells looking for access to the building. CJ has thrown several out in the last month. Most of the time they’re just poking through the trash.
- Coming up on the horizon is the Association picnic on October 11th starting around 5 or 6 pm. Times and dates subject to change.
- Since our good friends doing the street construction have missed their deadline of 2 months for work related street take overs, please plan accordingly when scheduling your move outs. Talk with your moving company and make sure they know what they’re going to be up against for parking. Since we can’t guarantee a permit for the load zone, try getting a paid permit through the City for curb locations further down the street towards Market St. And, as always, please schedule a date and time with us for the move. Those \$500 fines hurt.
